# Update for SH-100HD parameters

1. Download the file SH-100HD parameters (according to your region , select the suitable TP list, such as if you locate in European countries, then select TP-European-SH-100HD file. Do the same for Asian and American) and Tool under: www.sat-hero.com
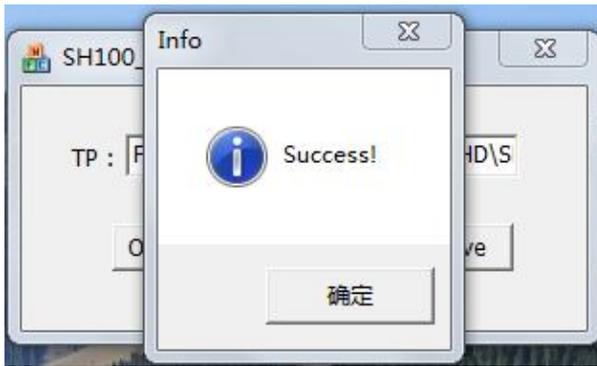

2. Open the Tool

3. Click "Open" button, insert the uploaded TP list Excel file

4. Click "Save" button, Name the bin file: SH100HD TP, Then confirm.

5. Connect satellite finder SH-100HD with PC by USB cable.

6. Copy the "SH100HD TP" Bin file to the internal memory of satellite finder SH-100HD.

7. Take out the USB cable and finish the update process.

Remarks:

1. Suggest putting 10-20 satellites and each satellite saves 10-20 TP.

2. Delete the original parameter list after finishing the update.
